## Job Posting

**computer network technician - Markham, Canada - KN Computers and Networking**

KN Computers and Networking [Markham, Canada](#)

17 hours ago

Apply

Full time

Description

- Education: College/CEGEP
- Experience: 2 years to less than 3 years

## Tasks

- Maintain, troubleshoot and administer the use of local area networks (LANs), wide area networks (WANs), mainframe networks and computer workstations and peripheral equipment
- Evaluate and install computer hardware, networking software and operating system software
- Provide problem-solving services to network users
- Perform routine network start up and close down and maintain control records
- Perform data backups and disaster recovery operations
- Implement network traffic and security monitoring software, and optimize server performance
- Research and apply meta-data to Websites and register Websites with search engines
- Perform Web-server backup and recovery operations

## Work conditions and physical capabilities

- Fast-paced environment
- Work under pressure
- Tight deadlines
- Repetitive tasks
- Attention to detail

## Personal suitability

- Accurate
- Client focus
- Efficient interpersonal skills
- Initiative
- Judgement
- Organized
- Team player

- Creativity
- Dedication

Screening questions

- Are you available for shift or on-call work?
- Are you available for the advertised start date?
- Are you currently a student?
- Are you currently legally able to work in Canada?
- Are you willing to relocate for this position?
- Work Term: Permanent
- Work Language: English
- Hours: 35 to 40 hours per week

## About me

I'm currently studying for a diploma in Computer Systems Technician Networking at Centennial College, where I've been learning since September 2022. During my time here, I've gained practical experience in setting up network devices, troubleshooting technical issues, and maintaining systems. My courses have provided me with a solid understanding of IT concepts, especially in networking, security, and virtualization.

Before starting my studies, I ran my own internet cafe, where I handled everything from setting up the network to fixing any issues that came up. This hands-on experience gave me real-world IT skills and a better understanding of how technology works in everyday situations. Running the cafe sparked my interest in technology and pushed me to continue learning through formal education. I'm eager to keep growing in the IT field and apply what I've learned to solve challenges in the real world.

Dear Hiring Manager,

I am excited to apply for the recently posted Computer System Technician Networking position. With a strong background in computer systems, networking, and troubleshooting, I am well-equipped to actively participate on your team, which interfaces with your end-users to keep your network smooth and secure.

Throughout my experience, I have developed solid skills in network setup, system maintenance, and troubleshooting hardware and software issues. I have hands-on experience installing and managing network devices, performing system upgrades, and maintaining connectivity across diverse platforms. Additionally, I am well-versed in implementing security measures to protect critical data.

I pride myself on my problem-solving abilities and attention to detail, which enable me to identify and resolve issues efficiently. I stay updated on emerging technologies and thrive in collaborative environments; qualities I believe will allow me to bring value to your organization.

I am interested in the opportunity to bring my skillset to your team.

Thank you for considering my application. My resume is attached for more details, and I look forward to discussing this opportunity with you.

Best regards,

Cabdirahman Ibrahim

### **PERSONAL PROFILE**

To secure a career opportunity in the IT field as a Computer Systems Technician where I can fully utilize my skills in networking, troubleshooting, and system maintenance while contributing to the efficiency and success of the organization.

### **HIGHLIGHTS OF QUALIFICATIONS**

- Pursuing a diploma in Computer Systems Technician Networking, with a GPA of 3.908.
- Over 10 years of experience in hardware and software troubleshooting.
- Hands-on experience in setting up and managing network devices.
- Skilled in installing and upgrading software, including Windows operating systems and antivirus programs.
- Knowledgeable in system security and data protection.
- Excellent communication and customer service skills.
- Strong ability to work collaboratively in team environments.
- Proven ability to solve technical problems efficiently and accurately.

### **PROFESSIONAL EXPERIENCE**

**Job Title: Owner/Technician.**

**DATE:** 2006 – 2010

**Company: Ambassador Internet Cafe, Somalia.**

- Managed day-to-day operations and handled customer relations.
- Repaired hardware issues and maintained computer systems.
- Installed and updated software programs, including Windows operating systems and antivirus software.

**Job Title: Maintenance Worker.**

**DATE:** 2014 – 2017

**Company:** Heavy Duties, Toronto, Ontario, Canada

**List your core responsibilities**

- Performed various maintenance duties such as plumbing, light bulb replacement, and painting.
- Ensured safety and cleanliness of facilities.

**Job Title:** Teacher  
Present

**DATE:** 2012 –

**Company:** Abu Huraira Centre Toronto, Ontario, Canada

- Teach students of different age groups Arabic language and Islamic values.
- Created tailored lesson plans to meet the needs of individual students.

**EDUCATION**

**Computer Systems Technician Networking**

Centennial College, Toronto, Ontario, Canada.

2022 – Present

**Adult High School Diploma**

Scarborough Centre for Alternative Studies, Toronto, ON

2014

At Centennial College, I developed skills in networking, troubleshooting, and system maintenance through hands-on labs and projects. I also gained valuable experience by helping classmates solve technical issues, which improved my problem-solving and teamwork abilities.

**Relevant Courses Completed:**

- Wireless Technology, Customer Skills, Routing & Switching
- Windows Server Operating Systems, System Scripting
- Fundamentals of Computer Networking, PC Hardware

**Key Achievements:**

- I noticed that my students were having trouble engaging with the material and were not performing well on their assessments.
- I decided to change my teaching style and began using an interactive approach that included hands-on activities and group discussions.
- This made a significant impact; my class became the top performers in the school, and the administration chose to implement my teaching style in other classrooms as well.

**PROFESSIONAL DEVELOPMENT:**

**Diploma in Computer Systems Technician Networking – Centennial College, Toronto, ON**  
**- Date: September 2022 - Present**

*At Centennial College, I built a solid foundation in networking and system maintenance, with a focus on telephony systems. I gained hands-on experience in setting up and managing telecommunications technology.*

Re: Reference Letter for Cabdirahman Ibrahim

To whom it may concern:

I have known Cabdirahman Ibrahim in my capacity as a professor of mathematics in the SETAS department at Centennial College.

Cabdirahman Ibrahim was a student in my *Math149 and Math169: Mathematics for Computer Systems* during Fall 2022 and Winter 2023, who through his strong work ethic showed a remarkable performance in the course. He participated in class discussions and showed interest towards solving complex problems through systemic approach and prior acquired knowledge to seek wide-ranging solutions. He was also empathetic towards other students and aided them when needed.

He had a great attendance record and was pleasant and professional in both his interactions with his fellow students and his peers. I am sure that he will make a great addition to future education and work placement at your organization.

Please do not hesitate to contact me if I can be of further assistance.

Sincerely,

Srishti Rawat

Relationship: Dennis Boodhoo was the Building Superintendent where I worked. We interacted often, and he can speak to my work ethic.

# Samples of Work

## Project Overview:

I used Cisco Packet Tracer to create a network for Smell Pharmaceutical that connects six key departments: R&D, Manufacturing, Sales, HR, IT, and Management. This network ensures reliable and efficient data flow between all departments.

## Background and Function:

I structured the network using VLANs to separate the traffic for each department. I installed and configured switches and routers to make sure all departments can communicate smoothly.

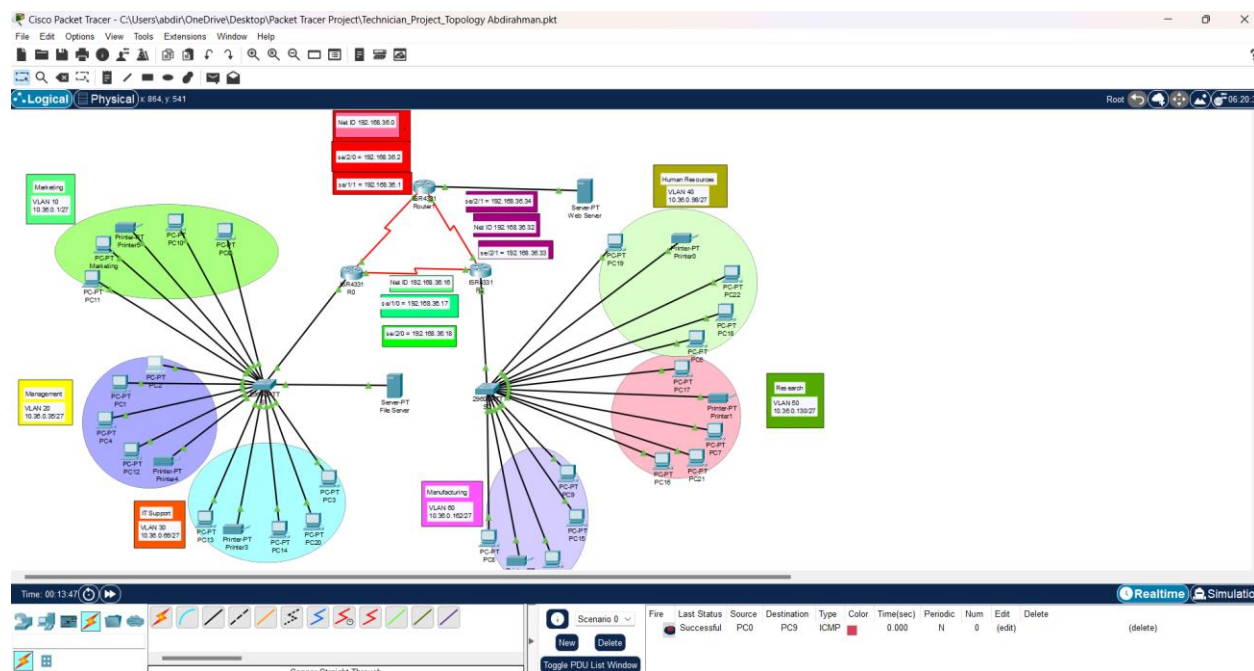

## Skills Demonstrated:

I designed the network, making sure each department had its own VLAN for security and organization.

I set up routers and switches to manage communication between the departments.

## Why I Included This Sample:

This project shows my skills in network design and configuration, my ability to set up VLANs, and my experience using Cisco Packet Tracer to create real-world network solutions.

The Manufacturing department pings the IT-Support department, and this is the screenshot.

```
